TestCheck, EMC/Paradigm’s new computerized test generator, is designed to help you evaluate how students are learning.

With TestCheck, you can:
- Create your own tests or use predefined, ready-to-activate tests
- Use any combination of over 2,500 multiple choice, true/false, matching, application, and problem-solving items
- Deliver tests in print, LAN, or Web platforms
- Create a Web site for your class and manage your class testing right on the Web!

www.emcp.com
EMC/Paradigm Internet Resource Centers provide rich additional resources to support your class including quizzes, student data files, Web links, tests, updates, and more!

Instructor resources include:
- Syllabus suggestions
- Course objectives
- PowerPoint presentations
- Tests and assessments
- Answer keys and model answers
- Web links

Student resources include:
- Pretests
- Downloadable files
- Self-quizzes with reportable results for teachers
- Study aids
- FAQs
- Web links
- Tech-literacy tutorials
EMC/Paradigm Class Connections are pre-built class management tools designed to enhance traditional classroom instruction.

Delivered on WebCT and Blackboard platforms, Class Connections allow you to create a customized Web component for your class. You can manage your class on the Web using the administrative functions for scheduling, the assessment function for evaluating, and the communication tools for threaded conversations and conferences.

EMC/Paradigm Class Connections also enable you to:
- Course syllabi  
- Lecture notes  
- PowerPoint slides  
- Test banks  
- Reportable quizzes  
- Assignments  
- Course tutorials and materials  
- Web power links

The following EMC/Paradigm textbooks are accompanied by a Class Connection:
